visit our product page here.

Installation Guide

1. Connect the Newnex special USB-C cable to the **device side** of FireNEX-UDC.

2. Connect a standard USB-C cable to the **host side** of FireNEX-UDC.

3. Connect the remaining ends of the cables to the host PC and USB devices.

4. (Optional) If desired, mount the bracket to the panel you intend to attach the FireNEX-UDC to. Otherwise, please keep the bracket stored in case you need it in the future.

Note: the bracket is attached to the host side by default; you may switch it to the device side with a hex screwdriver
